

datum, system, blockchain	service, cloud, provider
new, system, market	resource, network, edge
game, player, play	problem, function, scenario
node, mechanism, trust	buyer, value, analysis
blockchain, consensus, block	protocol, adversary, function
contract, smart, smart contract	strategy, game, evolutionary
player, reward, game	user, size, cost
model, method, feature	information, publication, author
technology, research, digital	blockchain, technology, financial
utility, game, optimal	miner, block, mining
order, provide, account	true, false, city
transaction, bitcoin, fee	attack, pool, attacker
algorithm, number, time	energy, trading, power
send, protocol, message	chain, supply, blockchain
computer, collusion, security	article, term, doi
figure, system, crossref	rate, simulation, figure
vol, proc, degree	faunistics, laccophilus, exs
key, scheme, security
