

blockchain, technology, application	follow, level, claim
node, block, network	strategy, game, equilibrium
model, method, learning	attack, security, attacker
datum, system, access	utility, optimal, function
time, value, show	model, case, analysis
key, user, public	service, cost, agent
token, ethereum, code	resource, network, edge
blockchain, network, time	information, technology, chain
research, business, social	information, content, require
online, company, available	storage, owner, request
contract, smart, smart contract	scheme, security, key
protocol, party, set	true, false, download
rational, vote, result	crossref, figure, study
system, mechanism, incentive	paper, condition, meet
game, player, play	energy, trading, power
information, online, account	doi, rule, ong
user, algorithm, model	miner, mining, block
transaction, bitcoin, fee	metaverse, nft, virtual
vol, trans, proc	supply, chain, supply chain
value, coalition, operation	faunistics, laccophilus, exs
