

LDA Topics

Topic 1

security technology
information network provide
blockchain
smart system access
application

Topic 2

dynamic
choose financial point
strategy
game model
probability analysis
evolutionary

Topic 3

exchange
smart token
transaction
asset **contract** user
smart contract
ethereum
address

Topic 4

task
algorithm node
network vol
resource edge
vehicle propose
computing

Topic 5

ferrugineous
description fine
faunistics
type **laccophilus**
exs
small amgs same

Topic 6

random function
security output
input
party **key** scheme
protocol
message

Topic 7

coalition
strategy consider
service
obtain **profit cost**
optimal
function information

Topic 8

license authorize
limited apply
rule priv
false user
restriction

Topic 9

blockchain technology
supply chain
platform supply cost
blockchain product
chain
technology
information

Topic 10

game
rule article
proof **state** term
ity
verifier **doi**
publication

Topic 11

transaction
demand **price** trading
energy time
smart power
electricity market

Topic 12

education
owner learning user
datum
data model privacy
learn test

Topic 13

number mechanism
participant **node** value
game result
set
player
consensus

Topic 14

development
online digital
future business
research new
study
technology
international

Topic 15

equilibrium strategy
reward **mining**
block pool
attack **miner**
bitcoin
transaction
