

LDA Topics

Topic 1

mechanism
vol china
model local
theory base research
wang

Topic 2

mechanism
block propose
transaction
incentive **node** number
blockchain
network
consensus

Topic 3

demand
price
grid **power** system
energy
trading smart
market
electricity

Topic 4

scheme spectrum
vehicle
true vol
trans pricing **false** true true
optimal

Topic 5

protocol random
scheme
party **key** set
output **security**
message
function

Topic 6

time node
payment path
channel
collusion
deposit same two
witness

Topic 7

first
seller
coalition
gacha **game** follow
property **buyer** bid
auction

Topic 8

equilibrium
game **block pool**
bitcoin **miner** power
reward **mining**
strategy

Topic 9

ferrugineous
description mesh
faunistics
laccophilus
fine exs amgs
almost type

Topic 10

restriction
license
limited
apply univ
utc **city** april
download
authorize

Topic 11

point choose
bank **value** risk
financial
strategy
figure **analysis**
evolutionary

Topic 12

network
edge mobile
device **task** algorithm
resource
computing
cloud service

Topic 13

information
base
value result
system
approach time trust
process
propose

Topic 14

information
technology product
cost **supply** platform
blockchain
chain
supply chain
blockchain technology

Topic 15

reward work
player
value **attack** honest
protocol stake
attacker
strategy

Topic 16

education
study learning
business
research new
technology
digital metaverse
development

Topic 17

address different
network bitcoin
analysis **user** time
transaction feature
number

Topic 18

information
security application
system service access
privacy **datum**
blockchain
technology

Topic 19

program condition
player play
game
get paper data
provide gaming

Topic 20

token make
asset smart state
contract code
smart contract
ethereum
create
