LDA Topics

Topic 1

model propose
blockchain datum
trust **node** value
network
base
consensus

Topic 2

electricity
system
demand power price
energy
smart trading grid
market

Topic 3

computing
network
resource vol
true edge false
mobile vehicle propose

Topic 4

message
scheme proof
set
random **key** function
security
protocol output

Topic 5

swap
description small
fine
type **faunistics**
laccophilus
exs same
ferrugineous

Topic 6

bitcoin
mining strategy
pool **block** reward
blockchain **miner**
equilibrium attack

Topic 7

access
user service
store system
privacy **datum** provide
blockchain
address

Topic 8

time follow
set
transaction
fee **user** cost
provider mechanism
incentive

Topic 9

information
service model
strategy obtain
point **game** system
share
dynamic

Topic 10

number value
protocol follow
first
game reward
consensus
stake **player**

Topic 11

supply chain
product **supply** cost
blockchain
platform **chain** information
technology
blockchain technology

Topic 12

digital business
new **system** application
technology
research study
blockchain
development

Topic 13

restriction
license
limited authorize
utc **apply**
april **city** univ
download

Topic 14

risk digital
finance paper bank
financial credit
market core
institution

Topic 15

transaction
smart contract
contract type
time **smart** token
account
state
ethereum
