LDA Topics

Topic 1

distribute ledger technology
single point failure
blockchain smart contract
smart contract blockchain
peertopeer electronic cash
international conference blockchain

Topic 2

computer science vol
open access article
machine learning model
springer nature switzerland
random number generation
smart contract smart
public key encryption
trust third party
generate random number
notes computer science

Topic 3

electricity retail company
creative common attribution
practical byzantine fault
paper organized follow
energy trading system
byzantine fault tolerance
peertopeer energy trading
proof work pow
game theory blockchain
trans smart grid

Topic 4

electronic science technology
mobile blockchain network
paper organized follow
computer science technology
organized follow section
internet things iot
public private key
unique nash equilibrium
stackelberg game approach
intelligent transportation system

Topic 5

garamond garamondbold garamonditalic
ita utilizzare queste
false true false
electrical computer engineering
warning off compresspages
smart con tract
pdf creati possono
smart contract deploy
generate new block
nash equilibrium game

Topic 6

computer communications security
peertopeer electronic cash
electronic cash system
ethereum smart contract
conference computer communications
arxiv preprint arxiv
bitcoin peertopeer electronic
cryptography data security
financial cryptography data
nakamoto bitcoin peertopeer

Topic 7

twostage stackelberg game
edge computing resource
stackelberg game model
natural science foundation
mobile edge computing
school computer science
national natural science
internet things journal
work support part
foundation china grant

Topic 8

Topic 9

blockchain supply chain
supply chain member
application blockchain technology
food supply chain
supply chain management
supply chain finance
base blockchain technology
annals operations research
international journal production

Topic 10

license limited city
utc xplore restriction
download april utc
city univ download
limited city univ
univ download april
april utc xplore
xplore restriction apply
authorize license limited

Topic 11

claim publish map
evolutionary stable strategy
mining pool selection
evolutionary game model
block withholding attack
evolutionary game theory
appl electron commer
two mining pool
sustainability peer review
theor appl electron

Topic 12

digital currency technology
vol springer cham
crypto lncs vol   eurocrypt lncs vol
vol springer heidelberg
lncs vol springer
central bank digital
cryptology eprint archive
bank digital currency
eprint archive report

Topic 13

average hash rate
peer review figure
cloud gaming service
available online access
adopt blockchain technology
new york usa
blockchain technology supply
supply chain transparency

Topic 16

pale ferrugineous ferrugineous
ulhor anuscript ulhor
body length width
faunistica nilsson catalogue
afrotropical laccophilus leach
vehicle owner customer
desire subsidy strategy
anuscript ulhor anuscript
male genitalia penis

Topic 17

republication redistribution require
citation information doi
final publication citation
change prior final
fully edit content
article accept publication
edit content change
content change prior
prior final publication
publication citation information

Topic 18

activity sport active
physical exercise physical
exercise physical activity
quality information disclosure
environ public health
paper meet condition
online tourism platform
int environ public
sport active ageing
physical activity sport

Topic 19

double large mesh
vol article publication
article publication date
leach coleoptera dytiscidae
revision afrotropical laccophilus
nilsson catalogue faunistics
taxonomic revision afrotropical
laccophilus leach coleoptera
olof biström zookeys
penis lateral aspect
